Industry Session 1—Meeting Imaging Requirements for MU2 • 2:00–3:00PM

Imaging has a big role in MU Stage 2 and one of the biggest challenges for imaging providers will be accepting imaging orders and sharing results (reports and images) electronically. In this session, learn more about MU2 imaging requirements and Merge's plans to help you address these requirements through the new iConnect Network.

Industry Session 2—State of the Imaging Market • 3:00–4:00PM

A Practice Manager with the Imaging Performance Partnership, Ingrid Lund, PhD, from The Advisory Board, will provide an update on the imaging market, including projecting the likely future of imaging volumes and discussing the latest reform and reimbursement changes. Join us to learn about the current and future state of the industry!

Breakout Session 1 • 10:00–11:00AM

Billing	Cardiology	Eye Care	Interoperability	Lab	Orthopedics	Radiology PACS	Rad. Workflow
Preparing for ICD-10 <i>Sponsored by Instamed</i> The ICD-10 changes that will take effect in October 2014 will have a big impact on your billing. Learn how ICD-10 changes will be addressed in Merge Financials.	Merge Cardio™ Overview & Roadmap Hear Solutions Management present the current product offerings of Merge Cardio as well as a look into future development by Merge's engineering team.
